Anna-Sophia Wirth

Curriculum Vitae

a.sophiewirth@gmail.com

As a young software developer from Berlin, I am looking for challenging work and challenging people. I am always trying to improve and gather new experiences. The quality of my work is one of the most important things to me, so I strive to find the balance between best practice and an open mind for new technologies. Critical thinking and detail orientation are no strangers to me.

Core Skills

I have gathered both back-end and front-end experience, am a problem solver and keen on always delivering the best result. I am an analytical thinker and level headed, especially when facing big tasks. I am a very visual person, love creating UIs and working with design work.

Back-End Skills

- Python
- Django
- Wagtail
- FeinCMS
- PSQL

- RESTful APIs
- HTTP Protocol
- Heroku

Front-End Skills
- Javascript
- Angular
- Vue
- HTML/CSS (Sass, Scss)
- Responsive Web Design
- Flex
- Bootstrap/Foundation
- Adobe Creative Suite (PS, AI)

(Human) Languages
- Fluent English - spoken and written
- Native German Speaker

Work History

Jonas Und Der Wolf - Full-Stack (July 2017 - Current)

After finishing my Media IT degree, I started working at the agency "Jonas Und Der Wolf", where software solutions for data driven web platforms are developed. Together with the costumers, product and software challenges are faced and overcome.:

- Implementing Frontend and Backend Solutions for Product Requirements
- Maintaining the Project Infrastructure
- Refactoring and Reworking Legacy Code into smart, modern Solutions
- Code Reviews and Testing

Thermondo - Front-End (January 2016 - May 2017)

After almost a year in the back-end, I applied to become a part of the front-end team in Thermondo. I am a very visual person and love working with website design. My duties in the front-end include:
- Outlining and Implementing new Features
- Self-sustained Problem Solving
- Communication with other Departments in the Company to solve their Needs
- Developing in-Company Apps by Myself
- The Co-Conceptualisation and Co-Implementation of a New Website and Technology Stack

Thermondo - Back-End (March 2015 - January 2016)

I was hired by the company Thermondo in the back-

end as a working student, in 2015. My duties here included:

- New Implementation of Features
- Writing Tests
- Improving already existing Features
- Writing SQL Queries
- Self Guided Working

Education

Beuth Hochschule für Technik (Oct 2013 - Mar 2017) Berlin, Germany

- Bachelor of Science (Media IT)
- Final Grade - Ø 2.0 (equivalent: 86%)

FU (2012 - 2013) Berlin, Germany

- Bachelor of Education (German/English)
- Cancelled, to pursue a degree in Media IT

Felix-Mendelssohn-Bartholdy-Gymnasium (2006 - 2012) Berlin, Germany

- Abitur (Ø 2.2)
